View all posts by TvtechworksMedia Player Classic - FREAKAZIC A few days ago, I went to take a look at my hard drive and noticed that it was getting very full. After some research and running a PC optimization program, I discovered that most of the space was used up by old media files. Surprisingly, there are still MANY media files on my computer. Most of them are old TV shows, with the exception of a few movies. So, what are these old files doing there? Why are they taking up so much space? Why are they here on my hard drive? I ran a little test and found that they were causing my PC to run very slowly. Well, guess what! You can safely get rid of them. To do this, you will need to download the Media Player Classic - FREAKAZIC. What is this program? The Media Player Classic - FREAKAZIC is a free, stand-alone media player. The program works with any DVD or CD-ROM or Blu-Ray discs. All you have to do is insert the disc and the program will start to play it. You can also view photos and other media files that were on your old media discs. How does this program work? When you first run the

What's New in the Crysis 2 Screensaver?
