Oct 12, 2016 Identify the BIOS version 2.1 or 2.2 etc. extract the zip file with winrar and then extract the zip folder. (you can run PhoenixTool more then once and it'll ignore the zip file.) Decompress the.wph file with PhoenixTool 2.11 and then insert it to the.bin file. Done!. Dec 18, 2018 Normal way of extracting a bios file is to extract the zip file with winrar and then extract the zip folder. (you can run PhoenixTool more then once and it'll ignore the zip file.) Decompress the.wph file with PhoenixTool 2.11 and then insert it to the.bin file. Done!. Oct 31, 2015 Hi, I have downloaded PhoenixTool v. 2.13 Now, i want to extract BIOS 2.11. Can I use PHOENIX_TOOL.EXE or is there another free tool for extracting bios 2.11?? Mar 29, 2020 I have downloaded PhoenixTool v. 3.0. I install and extract zip folder to phoenixtool-v3.0\Bios\SLIC v.2.1. Then I extract the.bin file. I load the BIOS with Chrome and it flashes the.bin file to the.bin file of PhoenixTool v.3.0 successfully. Still stuck to another problem… Phoenixtool 2.11a Phoenixtool 2.11a. PhoenixTool can extract the BIOS. A Windows OS is needed to extract the.wph file. Oct 12, 2016 I tried both mentioned method with PhoenixTool 2.11a & PhoenixTool 3.0 and both work. If you want to make sure to avoid non-working BIOS, create a Windows system then extract the folder with PhoenixTool v. 2.11a first then create a.wph file. [url= Ver2.11[/url].Most of the time Bitcoin Core (BTC) used to tick lower, albeit the last minute of the day had a bearish pattern. In the past 24 hours, the cryptocurrency has been steady in the downward trajectory. During this period, the trading volumes have declined from $4.5 billion to $1.9 billion. During the fall, Bitcoin made a series of lower highs and lower lows. Since then, Bitcoin has moved from a low of $4,805 to the current low of $4,675. After the decline, Bitcoin witnessed a flat trading period. Currently, the price is hovering around $4,900, with the same trading volumes recorded. So far, the trading volumes have remained below $4 billion for the last three days. A day ago, Bitcoin's volumes were at $7 billion, but later on, the decline in volumes, triggered the price decline. Bitcoin: Is More or Less of a Safe Haven? – Jonathan Ganor 2019-08-29 The sudden large drop in Bitcoin's price and the daily volumes is an indication that investors are loading bitcoin up with bearish views. Cryptocurrency developers are focusing on other coins like Litecoin, EOS, among others. However, they failed to predict the fall in Bitcoin
