“The tale of the Elden Ring begins in a mysterious land, and through the course of time, the story is carried out with the participation of various people. As time passed, the Elden Ring that was forged out of the chaos of the world was worn down and dwindled in number. When the Lord of the Elves decided to disperse the Ring to different people to carry on their futures, and succeeded in keeping the Ring in existence, the world became peaceful and the races in the world began to live in harmony.”

“The time has come to rise as a Knight of the Elden Ring.” “An era of evil begins to unfold.” “Join and play as one of those who are scattered in the world.” EACH OF THE ONLINE CONNECTIONS THAT OCCUR IN THE GAME IS DIFFERENT FROM OTHER ONLINE PLAYER AND POKEMON RPGs. Even while gathering the strengths of online play through an asynchronous communication feature, you feel connected with all the other players and can build a team while communicating with the others. “In this game, we tried to make the online play as comfortable as possible, with unique features, by allowing for asynchronous communication between the players and giving each of the online connections a different feeling from other online games.” NEW UNIQUE ADRENALIN-BASED GAMEPLAY “The story of the Elden Ring is bound with the actions of the characters and their thoughts. First, the game focuses on the battles between the characters with AI adjustments that are more complex than a simple “attack, then retreat, then repeat.” The interactions between the characters and the monsters that move around become more intense with each turn. There are more advanced actions as well, including attacks and evolutions, to bring the battles to life.” STRATEGIC IDEAS USED IN THE ONLINE BATTLES • Strategic Action that Spans the Moments • Smart Information Gathering IN ADDITION TO THE ONLINE PLAY, PLAYERS MAY ALSO UNLOCK LEVEL RANKS IN THE REAL-TIME WORLD AND EXPAND

THEIR OWN THEME PARTS THROUGH REWARDS. There are various ways that a character can increase his level, such as levels gained in battle, or through collecting medals. You can increase your level up to three
